RECOGNITION OF LES WEISBROD

HON. EDDIE BERNICE JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 15, 2009

Ms. EDDIE BERNICE JOHNSON of Texas. Madam Speaker, it is with great honor and pleasure that I stand before you today to recognize a very special constituent and friend of mine. He is both a mentor and an outstanding lawyer with a brilliant legal mind, and I am privileged to recognize and acknowledge the achievements of Les Weisbrod. I have known him since 1971, and I can truly say that he is a dedicated, distinguished, and committed citizen.

The name Weisbrod has long been associated with excellence, and his life and work reflect his parents' highest standards of hard work, honesty, courtesy, and responsibility. On July 30, 2009, Mr. Weisbrod will finish his term as President of the American Association for Justice. As the largest trial bar in the world, this association aims to promote a fair and effective justice system and has benefitted enormously from Mr. Weisbrod's leadership and expertise. He has served as President-Elect, Vice President, Secretary, Treasurer, and Parliamentarian of the American Association for Justice, in addition to leading many of this association's litigation groups through his quarter-century of membership.

Regarded as one of the most effective medical malpractice and personal injury attorneys in the country, Mr. Weisbrod has obtained more medical malpractice punitive damage jury verdicts for his clients than any other attorney in the United States. In 2003, he obtained a verdict which has been reported by the National Law Journal as one of the 100 most important verdicts of that year, and he

was named one of the best lawyers in Dallas for 2003–2005 in Dallas' "D" Magazine and a "Texas Super Lawyer" for 2003–2004 in Texas Monthly.

Our communities and our country rely on the contributions of individuals like Mr. Weisbrod who rise above and beyond the call of duty to make a difference in the lives of others, both personally and professionally. He has demonstrated an unfaltering and tireless commitment to the betterment of Dallas County, the State of Texas, and the entire Nation. I am fortunate to know and to have worked with Mr. Weisbrod for the past 38 years, and I am so pleased to call him a dear friend.

Madam Speaker, in closing, I would like to give a final salute to Les Weisbrod who has fought to ensure justice and fairness in our legal system. EARMARK DECLARATION

HON. FRED UPTON

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 15, 2009

Mr. UPTON. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of

H.R. 3183, the Energy and Water Appropriations bill for Fiscal Year 2010.

St. Joseph Harbor O&M Dredging
Department: Army Corps of Engineers
Account: Operations & Maintenance
Legal Name of Requesting Entity: Berrien County, Michigan

Address of Requesting Entity: Berrien County Administration Center, 701 Main St., St. Joseph, MI 49085

This request is for securing funds for dredging both the inner and outer harbor of St. Joseph, Michigan, as well as performing much-needed structural repairs. The inner harbor is a key port for raw materials such as limestone, sand and gravel for state highways. Road and building construction projects in the area receive a majority of their aggregate materials through the three commercial docks located in this harbor. Additionally, it is a major hub for recreational boaters, with over 1,600 boat slips. This project has been authorized through many WRDA acts, is vital to the economic viability of Southwest Michigan, and has the support of the entire community.

The St. Joseph Harbor is an integral cog in the region's economic engine. A recent study by Purdue University gauged the harbor's economic impact at more than \$5.5 million dollars and more than 35 local jobs. The St. Joseph Harbor is among the top 50 in commercial activity among Great Lakes Harbors.

Amount: \$750,000

Funding Breakdown: The entirety of this funding will go towards dredging to the entrance, inner channel of the harbor and outer harbor. Supplemental funds will be provided by Berrien County and local municipalities.

New Buffalo Federal Channel O&M Dredging

Department: Army Corps of Engineers
Account: Operations & Maintenance
Legal Name of Requesting Entity: City of New Buffalo, Michigan

Address of Requesting Entity: City of New Buffalo, 244 W. Buffalo St., New Buffalo, MI 49117

This request is to secure funds for the dredging of the Federal Channel in New Buffalo Harbor, from the Whittaker Street Bridge to Lake Michigan. The floodwaters from the September 14, 2008 storm event discharged an immense amount of sediment into the federal channel which has restricted the access to Lake Michigan. The project would dredge the federal channel to remove the shoals (much worse than what normal dredging handles) which prevent boats from accessing Lake Michigan. Dredged material would be used to supplement a beach nourishment area established by the ACOE. The federal channel serves boat traffic for the south Lake Michigan area, including residents of Chicagoland and Northern Indiana. New Buffalo is a boating community with an economy that relies entirely on its harbor's access to Lake Michigan via the Gallen River. Without the dredging, the City and surrounding area will see a significant decline in tourism and related jobs. This project is authorized through the River and Harbor Act of 1962.

Amount: \$139,000

Funding Breakdown: The entirety of this funding will go toward the dredging of the Federal Channel in New Buffalo Harbor, from the Whittaker Street Bridge to Lake Michigan

Western Michigan University Green Manufacturing and Energy Conscious Design Program

Department: Energy

Account: Office of Science and Biological Research

Legal Name of Requesting Entity: Western Michigan University

Address of Requesting Entity: 1903 W. Michigan Ave., Kalamazoo, MI 49008

This project will assist companies (small companies in particular) to take advantage of environmentally benign and energy conscious materials in their design and manufacturing processes. The proposal is a collaborative project involving WMU College of Engineering, College of Arts and Sciences, College of Business, industry partners and community participants and seeks to enhance economic and workforce development and technology transfer through the advancement and use of environmentally friendly materials, designs, products and manufacturing processes and systems, building upon the already successful manufacturing, environment and energy research centers and programs at WMU.

Amount: \$1,000,000

Funding Breakdown: One third of this funding will go to equipment, one third to educational materials development and delivery to employees and students, and one third to program support. Western Michigan University will provide supplemental funding for this \$3 million project.
